Welcome Cattlemen & Friends

Wow, what a year 2020 has been! We have been blessed with a new little helper this year in Hudson! Harvest is in the bin, bales are almost home, plenty of early snow....Oh, and we're selling some bulls again!

This year our offering of bulls has been generations in the making! We have never been as excited about a set of bulls as we are right now! With the addition of several sons from a top cow, Forever Lady Y9110, we've never offered such a balanced set of bulls from top to bottom! They are strong, sound, and carry a ton of eye appeal. All of them have been handled extensively to insure structural soundness and gentle disposition. We fully guarantee every one of them to get the job done for you!

Sitz Broken Bow 10336, S Foundation 7179, and GDAR Load Up 7104 are being used extensively in the highly respected herds they came from. GDAR Load Up was purchased with Arntzen Angus and Nielsen Angus, Nebraska. He has been making some tremendous daughters in several herds across Montana and Nebraska, and has found a home with new AI stud, Breeder Links.

"Foundation 7179 does a remarkable job of siring breed leading performance, great dispositions, and consistent phenotype. He has earned a valued role in our breeding program," said Nathan Spickler. These bulls speak true to that!

Broken Bow 10336 has a ton of breed leading performance, a strong maternal pedigree, and sires consistent design as well. He compares well in pedigree, phenotype, and has a similar performance epd profile as the popular Casino Bomber bull. Sitz Angus has been breeding with 10336 and a full brother to him for a couple years now. The small sample of sons are being received well.

The bulls were developed on grass over the summer this year and brought back in to gather on the grain lane in mid-November for the sale. They have been growing on a ration of yellow peas, grass/alfalfa, distiller grains, and a mineral pellet. All the bulls have been fertility tested, given Multimin, vaccinated, back poured, and fully evaluated for structural soundness and proper disposition. Again, we fully guarantee these bulls. If you are unsatisfied in any way, just let us know and we will do what we can to make it right. There was a small mix-up at the genetics lab this fall, so the few bulls without pedigree and epd's at print time will be available online and on sale day.

Thank you for joining us this year. We really feel like these bulls speak for themselves. We have never offered a group of bulls with as much performance and maternal power as we have this year. From the beginning of the catalog to the end, these guys have a ton of eye appeal both visually and on paper! There has never been a better time to try Math Farms!

Happy Holidays from all of us at the farm, and here is hoping to see you all happy and healthy in 2021!

- Offers muscle and performance with some added stature. His daughters are broody and stand up great so far. We are really impressed with the muscle and carcass merit in his calves.

COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus®. Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions. A commitment to the female starts with MaternalPlus.

- A real neat bull from a Y9110 daughter from SAV Cowboy. 6106 is a moderate version of Y9110, and this 7179 son is similar in design. Will make an excellent heifer bull and has the maternal power to make some excellent daughters. Another extremely high ratioing bull.
